Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Saturday 23 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rain moving southeastwards tonight, heavy across parts of Scotland.

This Evening and Tonight:
Rain in northwest UK, heavy across parts of Scotland, edging into parts of Wales and western England later. Southeastern areas drier but cloudy. Clear intervals and scattered blustery showers reaching Northern Ireland and western Scotland later. Windy but mild.

Sunday:
Weakening band of rain continuing southeastwards across Wales and England, but some southeastern areas dry, perhaps bright. Behind the rain, a mix of sunshine and scattered heavy, blustery showers. Breezy.

Outlook for Monday to Wednesday:
Sunshine and showers Monday. Rain arriving into the north Tuesday, moving from the northwest on Wednesday, though probably remaining dry in the south. Becoming mild with strong winds at times.
